Professional Experience

One Codex - *Software Engineer* San Francisco, CA: May 2017-Current

- ❏ Implemented metagenomic diversity tools for our Python client library and built new search functionality on our web application so users can make more precise searches
- ❏ Currently building infrastructure for an application that allows users to search public microbial DNA sequences and store proprietary ones

Center for Translational Cognitive Neuroscience - *Research Assistant* Boston, MA: Summer 2015

- ❏ Developed a MATLAB script and user interface to analyze electroencephalography data and detect markers for long-term learning

Software Projects

Bulletter - *JavaScript* Store | GitHub

A Chrome extension for highlighting notes with integration into MS Word

- ❏ Dynamically manipulated browser content to highlight the user's notes
- ❏ Leveraged the Chrome Storage API, and XML to create a downloadable Word document which formats the relevant information

Wellp - *Ruby/Rails, React, Redux, PostgreSQL* Live | GitHub

Full stack Yelp clone where users write reviews of businesses they hate

- ❏ Used jQuery AJAX requests to store user reviews and ratings for businesses
- ❏ Utilized the Google Maps API to display search results and redirect to business pages based on user's location of interest

BandoJambo - *JavaScript, HTML5* Live | GitHub

Synthesizer built for the browser

- ❏ Implemented the Howler.js, Easel.js, and Tween.js libraries to create audio and visual content in response to user input

UNItconverter - *Java* Store | GitHub

Unit-converter Android application for people who love cats

- ❏ Designed and implemented the API for a scientific unit converter
- ❏ Collaborated with a team to present cat facts through the Cat Facts API

Skills

Python/Flask
GraphQL
React
JavaScript
HTML5/CSS
Nightwatch.js
Pytest/RSpec
SQL
Git
C++
Java
MATLAB

Additional Projects

Biomedical Capstone Project

- ❏ Used oscilloscopes, multimeters, and discarded electronics to prototype an autoclave for low-resource settings

Biomedical Measurements

- ❏ Designed and conducted a study to observe heart activity in response to emotional stimuli
- ❏ Developed MATLAB scripts to analyze the frequency response of electrocardiogram data

Education & Involvement

Boston University, May 2016

- ❏ BS in Biomedical Engineering, GPA 3.54, Cum Laude, Presidential Scholar
- ❏ Member of Tau Beta Pi and Alpha Eta Mu Beta honor societies

Engineers Without Borders SF Professional Chapter, Team Nicaragua - Fundraising Chair

- ❏ Developed a Yelp scraper to search reviews for keywords and discover collaboration opportunities with local businesses
